

Public Works Committee Meeting Agenda  
December 5th, 2018  
5:00pm

Agenda:

- 1) Open Forum.
- 2) Hazelwood Drive Bridge. Memo from Mark Hallan and project update.
- 3) Hazelwood sewer memo from Mark Hallan and project update.
- 4) Sewer flows and expansion discussion/update.

FYI:

- 1) New signs will be going up at the Recycling Center reminding people to bring their unwanted paint to the County Landfill. People are leaving paint near the oil recycling bin (not sure they aren't dumping it in the oil recycling) that they should be bringing to the County Landfill. Getting rid of items that we don't recycle here, like paint, cost the city money to dispose of at the County Landfill. People also like to drop off vegetable oil at the *petroleum oil* recycling bin. The city doesn't have a vegetable oil recycling bin. Vegetable oil is biodegradable and can go in the regular trash or be composted.
